Dear Everyone,

Here is the training information of EBSD and Hitachi FEG SEM in Next week,

http://folk.ntnu.no/yingday/NilsYD/Stud_Lab2007/0index.htm

Please check whether your name is on the Participant list and join the sections on time! The EBSD training section is reserved a quite long, since we feel some users maybe need to learn SEM basic as well....

Recently, we are occupied with stud Labs and we have to delay some trainings. The present participant list was made according to your reply to my colleague Tor Nilsen....etc., and we will do more training in the near future.

if you want to warm up before you come,

SEM <http://www.nt.ntnu.no/users/torani/Training/>EBSD <http://folk.ntnu.no/yingday/NilsYD/EBSDbasic/index1.html>

God Helg,

--

Regards,

Yingda
